

WE LIVE AND BREATHE CRANES

The company, the people, the products

VETTER - Lifts and moves.

WE DELIVER SOLUTIONS

The VETTER Krantechnik GmbH Company is a leading manufacturer of slewing jib cranes, PROFI gantry crane systems, and ROTOMAX® load turning devices. In the newly built crane factory in Haiger/ Germany, we manufacture cranes using ultra-modern production technologies that comply with international standards and perform a variety of tasks in different industries all over the world. The product range also includes sophisticated and customized solutions such as for oil, gas, and offshore industry. VETTER thus offers the largest range of slewing jibs cranes worldwide!

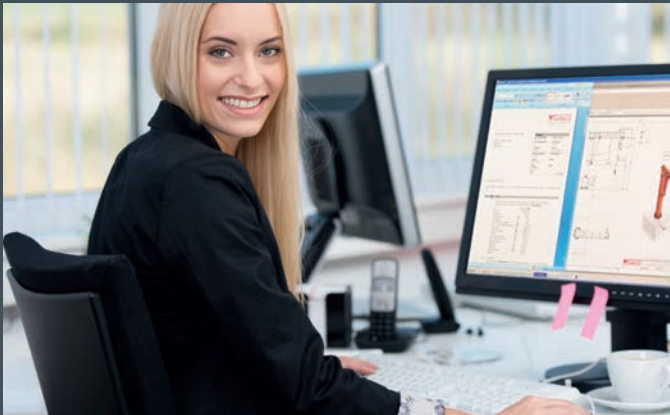

WE EMBODY TRUST

Highly trained employees use their expertise and motivation daily to ensure that our products are of high quality, so our customers can rely on us. From project planning to commissioning of systems, you have a technically competent and reliable team to assist you. With VETTER you benefit from highest product quality and impeccable support throughout the entire lifecycle of our products – that is our promise to you.

*Indebted to the past -
obliged to the present -
turned to the future!*

Johann Heinrich Jung-Stilling (1740–1817)

WE ARE VETTER

VETTER – SHORT & SWEET

- Family-owned company with more than 125 years of experience
- 230 employees
- Over 100,000 slewing jibs cranes produced according to the VETTER system worldwide
- 13,000 sqm of production area
- Service network throughout Germany
- Approvals by SLV, Germanischer Lloyd, GOST, ATEX, etc.

Our guiding vision is binding for our conduct towards each other, our customers, suppliers, business partners, and the general public. It shapes the perception of the entire company.

- ▼ VETTER is a modern company with tradition.
- ▼ Our crane systems and services stand for reliability, availability, and quality.
- ▼ All our efforts are focused on the needs and satisfaction of our customers.
- ▼ We are a trustworthy partner for our customers and suppliers and strive for a long-term collaboration.
- ▼ When developing new products, we are guided by the wishes and needs of our customers.
- ▼ We are an attractive employer. We live our social responsibility and aspire to long-term retention of our employees.
- ▼ We at VETTER wish to win as a team and know that each individual contributes to the success through their commitment, attitude, and action.
- ▼ In our interaction with one another and others, we foster a culture of openness, tolerance, respect and politeness as well as fairness and trust.
- ▼ We firmly believe that good training and qualifications boost not only employee satisfaction and efficiency but also the company success.
- ▼ The basis of our enduring success is our experience and continuous investment in employees and company.

STANDARD SLEWING JIB CRANES

set your production in motion

Almost everything is possible – having the world's largest range of slewing jib cranes, we supply international customers in various industries. For every customer we have the right crane solution – from column-mounted and wall-mounted slewing jib cranes through the smooth-running crane with aluminium jib arm to mobile slewing jib cranes. Thanks to our comprehensive range of accessories, the slewing jib cranes can be adapted to individual requirements.

KEY DATA FOR STANDARD SLEWING JIB CRANES

- Capacity from 80 kg to 20 t
- Outreach up to 12 m

SPECIAL CRANES

tackle every task

When presented with complex requirements and when special features are desired, we develop a suitable crane solution for our customers together with our competent engineering team. Cranes with a capacity up to 100 t and an outreach up to 20 m are feasible.

INDIVIDUAL SLEWING JIB CRANE SOLUTIONS

No task is too complex, no application area is too difficult. We implement individual slewing jib solutions also for the toughest handling tasks. We have numerous happy customers in the application areas of power plants, steel industry, offshore platforms, tank farms, or mining.

SLEWING JIB CRANE WITH SEVERAL JIB ARMS

The place-saving solution for large production islands: Our slewing jib cranes with several jib arms on one column. The compact design of this crane solution enables maximum usability of the work surface.

YACHTING CRANES

Lowering or hoisting yachts safely in or out of the water – thanks to our yachting cranes, we have a suitable solution for every marina and every transport task.

PROFI GANTRY CRANE SYSTEMS

enable unlimited productivity

For maximum productivity in a wide variety of production situations, we provide our customers with individually customized gantry crane systems with capacities from 80 kg to 10 t, spans of up to 15 m, field lengths of up to 10 m (infinitely expandable) as well as overhead cranes running above and below.

KEY DATA FOR PROFI GANTRY CRANE SYSTEMS

- Capacity from 80 kg to 10 t
- Length from 2 to 10 m
- Width from 2 to 15 m

ROTOMAX[®] LOAD TURNING DEVICES

ensure safety

ROTOMAX[®] load turning devices help in turning bulky and heavy parts easily and safely. Whether for single or tandem operation, with or without automatic compensation or manual or electrical lateral belt adjustment as well as a variety of different belt distance – we design ROTOMAX[®] load turning devices for every application area. Using simulations, we determine the respective requirements and develop customized solutions for our customers.

KEY DATA ROTOMAX[®]

- Capacity from 1 to 200 t
- Belt distance fixed or manually/ electrically adjustable
- Special devices, e.g. for foundries
- Individual solutions tailored to your application
